# Overview

**Looking at the final website**

**Required tools**

This course will teach you how to  
build your first website with HTML

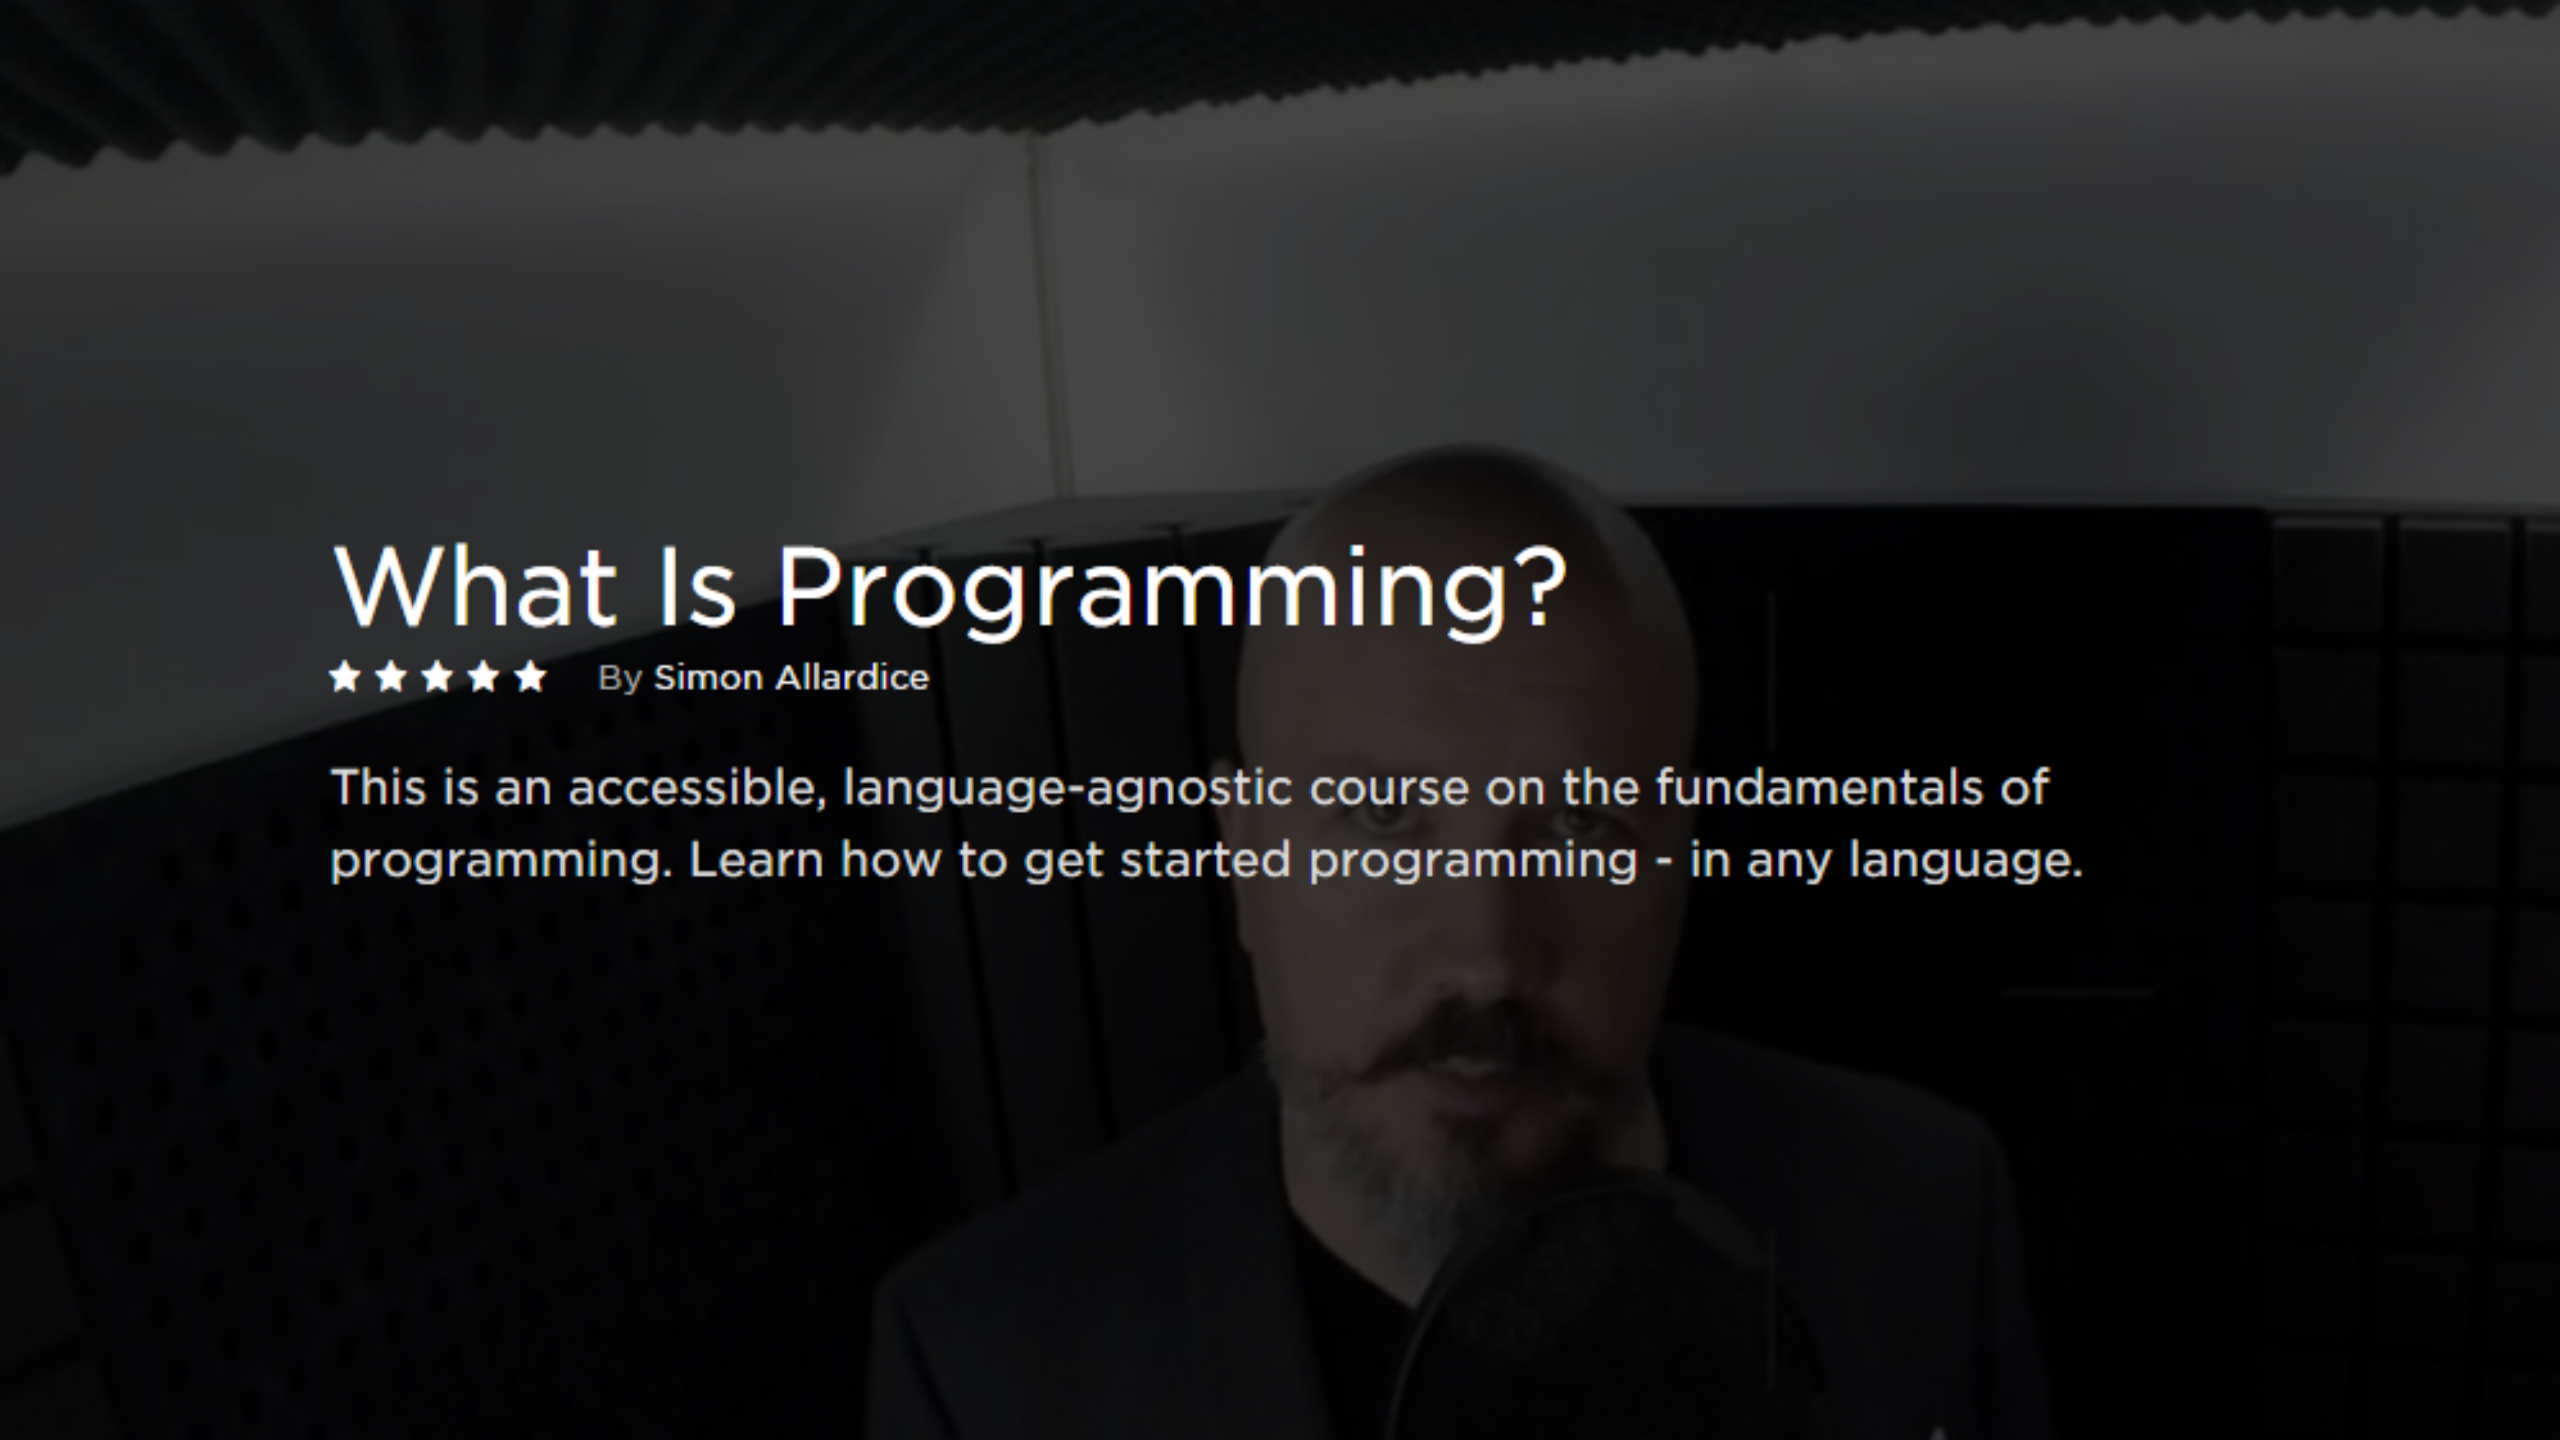

Why would you learn  
about HTML?

No experience needed!

# What Is Programming?

★★★★★ By Simon Allardice

This is an accessible, language-agnostic course on the fundamentals of programming. Learn how to get started programming - in any language.

Follow along with  
everything I'm doing!

## Apple pie

Our world-famous apple pie

[Save as favorite](#) Apple pie is one of your favorites

**Price: \$12.95**

### Description

Bethany received the recipe for this delicious apple pie from her grandmother. At the age of 5, she was already baking this *all-American traditional apple* pie at her home. As the recipe goes a long way back, it contains the most typical ingredients used for so many years to make this classic even today one of our most popular pies.

This pie is available **every day** and comes in 2 sizes. **You can serve it cold or warm it for 4 minutes in the microwave to give it an extra touch.** Your house will smell just like Bethany's Shop!

This recipe has been in our family for generations. We hope you enjoy this pie as we do  
- Bethany

Note that some ingredients make be are dangerous if you have certain allergies. See the list of ingredients below.

Bethany cares about the environment and we try to limit our CO<sub>2</sub> emissions as much as possible. See our terms page for more info.

### How we make this pie

1. First, we combine sugar, flour and spices. We toss the apples with some lemon juice and add sugar.
2. We then create the bottom crust and fill that with apple mixture. We put some butter on that. We then roll remaining crust to fit top of pie.
